What is the Individual Taxpayer Burden Survey?

This survey provides Congress and the President with accurate estimates of the time and money taxpayers spend to follow federal tax rules and regulations. Tax administrators and policy makers use this information to reduce and manage taxpayer burden. By taxpayer burden, we mean all of the time and money spent during the course of the year by you, your spouse, business employees, friends, or relatives to complete your 2011 individual federal income tax return.

Please be assured that you will not be asked about specific income or other financial information. All information you provide will be used for research purposes only. Participation is voluntary, but the information you provide will ensure that households like yours are represented.

Who should complete this survey?

The person in your household most involved in the completion of your 2011 individual federal income tax return should complete this survey. Your individual federal income tax return refers to Form 1040, 1040-A, or 1040-EZ, as well as any associated forms, schedules, and worksheets that you completed or filed. It does not include forms associated with state and local income taxes, partnerships, corporations, estates, employment taxes, excise taxes, or anyone else's individual federal income tax return.

What if someone else did my taxes?

You may need to consult with others when completing this survey, and we encourage you to do so. However, please do not have your tax professional complete this survey for you, and do not include the time spent by a tax professional on your behalf. We are interested in your experiences.

How long will it take?

We expect that it will take about 15 to 20 minutes to complete this survey. Your time may vary based on your individual experiences.
