

## Publication 6186-A

### Calendar Year Return Projections for the United States and IRS Campuses

Publication 6186 is updated annually to provide U.S.- and campus-level Calendar Year (CY) projections by major tax return categories. It also includes exam class projections for selected return categories. Publication 6186-A serves as a one-sheet companion to Publication 6186, presenting the main takeaways from the publication.

#### Publication 6186 at a Glance

Provides projected tax return volumes for about

80

IRS tax forms

Maps the projected tax return volumes to

7

IRS processing campuses

Presents projected exam class volumes for

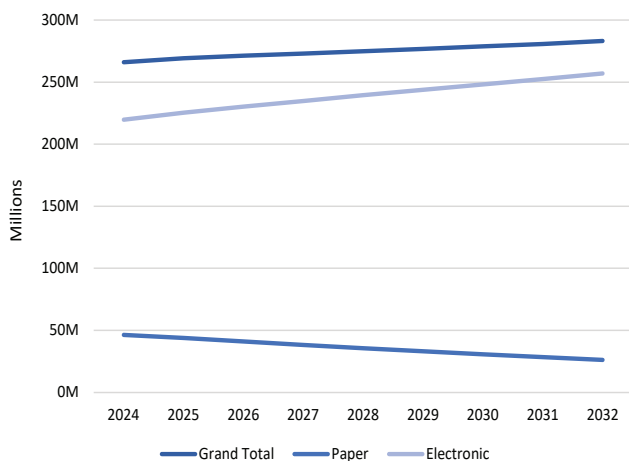

6

tax return categories

#### Key Highlights From the 2025 Update

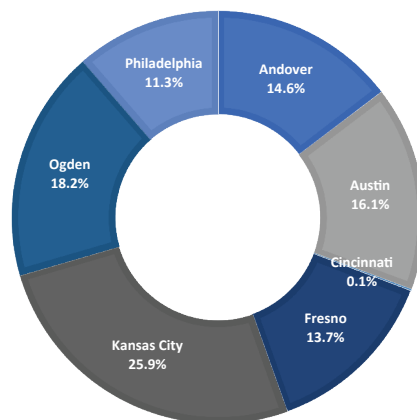

- In CY 2024, approximately 82.6% of all tax returns were filed electronically. This share is expected to rise to 83.7% in CY 2025, reaching 90.7% by CY 2032.
- Individual income tax returns made up about 60.3% of all returns processed in CY 2024. This percentage is expected to remain consistent in future CYs.
- Approximately 93.3% of individual returns were filed electronically in CY 2024. This percentage is projected to increase to 93.9% in CY 2025, reaching 97.0% by CY 2032.
- The Kansas City campus processed the largest share of returns in CY 2024, accounting for 25.9% of all returns.
- The Cincinnati campus processed the smallest share of returns in CY 2024, accounting for 0.1% of all returns.
