## Results Based Decision Making and Business Transformation: Changing the landscape of data management

SOI Panel Conference  
September 2017

# Building A Results-based Culture

- Professionalism, transparency and openness
- Horizontality and collaboration
- Governance and accountability
- Focus, measurement, reporting

# The Data Agenda

- Policy changes
- Establishment of a DG level forum
- Emergence of Chief Data Officer roles
- Enabling sharing and developing standards

# Today's Data Context

**Rapidly changing and increasingly complex economy and society**

**Proliferation of data and data providers**

**Data revolution, ingenuity and innovation**

**Increased expectations and demand for “real-time” and micro/detailed data**

# Leveraging the expertise of...

**Data quality  
and  
confidentiality**

**Builder of  
statistical  
capacity**

## a modernized Statistics Canada

**International  
leader**

**Data  
integrator**

# User Centric Service Delivery

Multifaceted and facilitated by the pillars of a modern Statistical Agency
