Budget

	FY2023 Budget	FY2024 Anticipated
Labor	\$ 40.62	\$ 45.63
Contracting	\$ 1.50	\$ 4.00
Other Non-labor	\$ 0.30	\$ 0.30
	\$ 42.42	\$ 49.93

Note: Amounts are in millions of dollars. Labor funds include both NHQ and field operations.

Strategic Objective 4.8 Key Projects

Strengthen and create research partnerships - Issue annual calls for proposals for SOI's Joint Statistical Research Program (JSRP), adhering to the OMB Standard Application Process

Develop new privacy-preserving analytic methods - Develop and release synthetic public-use data, and a process to allow users to validate findings

Support government-wide program evaluation and evidence-building - Develop a Data Service that would work with other agencies to produce specialized statistics and tabulations, similar to the College Scorecard

Develop streamlined service to assist state, local, tribal governments with evidence building – Pilot a Statistical Query System that would provide a set of predetermined outputs quickly and at relatively low cost.
