## **Overview**

This 2016 edition of Publication 6149 (Calendar Year Return Projections by State) provides state-level forecasts of the number of tax returns to be filed in Calendar Years (CY) 2016 to 2023 by major form type and medium of filing. Internal Revenue Service (IRS) staff from the Statistics of Income Division prepares these projections annually to reflect changes in filing patterns, economic and demographic trends, legislative requirements and IRS administrative processes. These forecasts are primarily used for resource planning and analysis.

The projections presented in this publication are based on various forecasting methodologies including regression models, time series techniques, growth rates and historical ratio methods. The projection method employed depends upon the form type, the availability of historical data and applicability of relevant economic and demographic forecasts. Typically, returns are forecasted first for the United States. States are forecasted next and adjusted to the U.S. totals.

## **Data Sources and Projection Methodology**

The reported actual volumes of returns filed in CY 2015 are based on returns processed and recorded on the IRS master files. However, master file counts were not available in a few instances. In these cases, tallies of actual filings were provided by program staff in the IRS operating divisions, typically from data capture systems located in the IRS processing campuses.

The forecasts presented in Publication 6149 are based on various statistical models that capture and extrapolate historical filing trends by each unique form type and medium of filing. Most models use time series extrapolation methods such as trended exponential smoothing approaches. However, some return types, particularly individual income tax filings, are based on regression models that use economic and demographic variables such as total employment and gross domestic product as key input factors. In these instances, forecasts of the economic and demographic data series used as the predictor variables are provided by IHS Global Inc. Also, where historical data are limited or non-existent, such as for new e-file products, the filing pattern for a comparable return type is applied.

## **Discussion of Trends**

In CY 2015, the share of total electronic volumes made up more than 66 percent of total filings. This percentage is expected to rise to more than 67 percent in CY 2016, and then to steadily increase to nearly 75 percent by 2023. Individual income tax returns make up more than half of the grand total of return filings in any given year. In CY 2015, the estimated share of individual Form 1040 series returns filed electronically is almost 86 percent, and current forecasts project that this ratio will reach nearly 93 percent by

2023. Readers interested in more detailed discussion of trends and issues in individual income tax returns filings should refer to the 2016 update of IRS Publication 6187, *Calendar Year Projections of Individual Returns by Major Processing Categories*.

### **Accuracy of Prior Projections**

In an effort to measure the quality of our products and services, this section, along with Table 54, provides a brief analysis of the accuracy of prior projections. Using four years of actual data from 2012 through 2015, Table 54 presents the accuracy of our national level projections by major return categories. This analysis covers only the major return categories projected on a calendar year basis and serves as a general measure for approximating the overall reliability of our U.S. level return projections.

The table presents two measures of projection accuracy; the mean absolute percent error (MAPE) and the number of over-projections. The MAPE is computed as the average percent projection error regardless of whether the projections were over- or under- actual filings in each of the four projection cycles. The number of over-projections can show whether projections are consistently over- or under- projected. A value of two indicates balanced forecasts over the four cycles.

The table groups these two measures by time horizon. The time horizon is determined based on the year a forecast was made and the year projected. For example, a forecast for 2015 made in 2012 would be part of the “3- years-ahead” time horizon.

### **Comments and Questions**

We thank our customers for their support as we continually seek to improve our products and services wherever possible. We welcome customer feedback at any time. Comments and suggestions regarding this publication can be directed to Ronald Walsh, Acting Chief, Servicewide Support Section at (202) 803-9309.

\* Some actuals shown in this table may differ from official counts reported elsewhere because they exclude certain return series only recently projected and whose accuracy can not yet be evaluated.

## Table Notes

- Detail may not add to total due to rounding.
- Historical (actual) data for each state in this publication have been rounded to the nearest tenth while projected volumes have been rounded to the nearest hundredth; therefore projections of 9 or fewer and 49 or fewer, respectively, were rounded to zero. However, some forms can report zero filings because they are associated with only selected areas, or because their filing options were just established or recently eliminated.
- Actual and forecasted return counts for the major categories are based on IRS master file processing, as recorded in the electronic versions of the “Report of Returns Posted to the IRS Master Files.”

### Tables 1 ~ 53

- “Grand Total” is the sum of “Total Primary Returns” and “Supplemental Documents.” The “Total Primary Returns” category is the sum of all forms shown on the tables, excluding “Supplemental Documents.”
- “Individual, Total” is the sum of paper and electronic Forms 1040, 1040-A, 1040-EZ, 1040-NR, 1040-PR, and 1040-SS.
- “Forms 1040, 1040-A, and 1040-EZ” is the sum of paper and electronic Forms 1040, 1040-A, and 1040-EZ.
- The last category in the “Individual, Total” section includes the following: Form 1040-NR (U.S. Nonresident Alien Income Tax Return); Form 1040-PR (U.S. Self-Employment Tax Return--Puerto Rico); and Form 1040-SS (U.S. Self-Employment Tax Return--Puerto Rico, U.S. Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands [CNMI]). These forms are assigned to the International area.
- Various return categories, such as Form 1040-ES (Individual Estimated Tax) and other business and individual returns, include line items to account for alternative methods of tax filing (electronic and/or magnetic tape). However, due to space constraints most “paper only” breakouts were omitted in the states tables. The “paper only” components can be derived by subtracting the electronic and/or magnetic tape counts from their respective return totals.
- “Fiduciary, Form 1041, Total” includes both paper and electronic Form 1041.
- “Fiduciary Estimated Tax, Form 1041-ES” is the Estimated Income Tax for Estate and Trust.

- “Partnership, Forms 1065/1065-B, Total” includes both paper and electronic Forms 1065 and 1065-B.
- “Corporation Income Tax, Total” includes Forms 1120 (paper and electronic), 1120-F (paper and electronic), 1120-FSC, 1120-H, 1120-L, 1120-ND, 1120-PC, 1120-REIT, 1120-RIC, 1120-S (paper and electronic), and 1120-SF. As a result of the Foreign Sales Corporation (FSC) Repeal and Extraterritorial Income Act of 2000 which repeals provisions in the U.S. Internal Revenue Code relating to taxation of foreign sales corporations, the volume of Forms 1120-FSC is declining.
- “Form 1120-C” is the U.S. Income Tax Return for Cooperative Associations.
- “Form 2553” is the Election (to file Form 1120-S) by a Small Business Corporation.
- “Form 1066” is the U.S. Real Estate Mortgage Investment Conduit (REMIC) Income Tax Return.
- “Estate, Total” includes Forms 706, 706-NA, 706-GS(D), and 706-GS(T).
- “Gift, Form 709” is the United States Gift (and Generation-Skipping Transfer) Tax Return.
- “Employment, Total” includes paper, magnetic tape and electronic Forms 940, 940-EZ, 940-PR, 941, 941-PR, 941-SS, 943, 943-PR, 943-SS, 944, 945, and CT-1. Form CT-2 is not included in “Employment, Total.”
- “Form 1042” is the Annual Withholding Tax Return for U.S. Source Income of Foreign Persons. This form is assigned to the International area. It is sometimes considered an employment tax return, but listed separately here.
- “Exempt Organizations, Total” includes Forms 990 (paper and electronic), 990-EZ (paper and electronic), 990-N (only available electronically starting from CY 2008), 990-PF (paper and electronic), 990-T, 4720, and 5227.
- “Government Entities/Bonds, Total” includes Forms 8038, 8038-B, 8038-CP, 8038-G, 8038-GC, 8038-T, 8030-TC, and 8328.
- “Political Organizations, Total” includes both paper and electronic Forms 1120-POL (paper and electronic), 8871 and 8872.
- “Excise, Total” includes Forms 11-C, 720 (paper and electronic), 730, 2290 (paper and electronic) and Form 8849 (paper and electronic).
- “Form 5330” is the Return of Excise Taxes Related to Employee Benefit Plans.
- “Form 8752” is the Required Payment or Refund Under Section 7519.

- “Supplemental Documents” consist mainly of applications for extensions of time to file and amended tax returns, and include Forms 1040-X, 4868 (both paper and electronic), 1120-X, 5558, 7004 (paper and electronic), and 8868 (total and electronic).
